

Zero Personal Services Encumbrance Process

The process to zero out Personal Services encumbrances involves the completion of actions in both OneUSG Connect and GeorgiaFIRST Financials. This article provides some general information and references related to this process, including the Zero Personal Services Encumbrance Process job aid, which is located on the GeorgiaFIRST Financial web site.

Navigation: https://www.usg.edu/gafirst-fin/documentation/chart_of_accounts_and_fiscal_year_end > User's Guides > Fiscal Year End YYYY Processing and Closing Manual

General Information:

The GeorgiaFIRST Financials Zero Personal Services Encumbrance (BORIF06D) process zeros out the encumbrances for ALL Personal Service account numbers beginning with 5xxxxx, except encumbrances created by Purchase Order (PO) or manual encumbrance journals. The journal may also need to be modified by deleting lines that may affect unemployment insurance and workers' compensation, etc. The premature zeroing of these accounts may require manual entries for correction.

In OneUSG Connect, the Shared Service Center (SSC) Commitment Accounting team runs a zero encumbrance process (BORENCLQ & PAYGL03A) and a calculation (calc) process (BORENC & PAYGL03A) during each encumbrance batch. Different accounting dates are used for the zero process and the calc process to allow institutions to post each accounting template separately. In general, the accounting date of Saturday is used for the zero encumbrance process and the Sunday accounting date is used for the calc process.

Institutions are responsible for reviewing HR_ACCTG_LINE (HRA) in OneUSG Connect and GeorgiaFIRST Financials to ensure the tables are in sync. After posting the zero journal, Institutions may need to run the Zero Personal Services Encumbrance (BORIF06D) process in the GeorgiaFIRST Financials to keep both systems in sync. The GeorgiaFIRST Financials Zero Personal Services Encumbrance (BORIF06D) process does not affect OneUSG Connect tables.

It is very important to review Payroll processing/General Ledger processing schedules to ensure process instances are posted in the correct order. Posting Payroll and Encumbrance journals in the wrong order may create out of balance encumbrance situations.

Fiscal YE Notes:

- For Year End Zero Personal Services Encumbrances, all payroll expense and encumbrance journals from the closing Fiscal Year must be processed before zeroing the personal services encumbrances.
- This process zeros out the encumbrances for ALL Personal Service Account numbers beginning with 5xxxxxx, except those transactions created by Purchase Order or a manual encumbrance journal.

Prerequisite(s) (Is there a task that should be completed, or information required before this task can begin? If so, please describe.):

- Review queries in OneUSG Connect:
 - BOR_CA_HRA_NOT_JGEN_COUNT (HRA Summary)
 - Results include:
 - Accounting Template
 - Run Date
 - Accounting Date
 - Process Instance
 - PAYROLL_EN created from:
 - Payroll GL Processing for encumbrance reversals based on Payroll (PAYGL02A).
 - And/or OneUSG Connect zero encumbrance processing (BORENCLQ & PAYGL03A).
 - ENC_PROJ created from encumbrance calc processing (BORENC & PAYGL03A).
 - BOR_CA_HRA_NOT_JGEN (HRA Details)
- Review GeorgiaFIRST Financials Query:
 - BOR_CA_HRA_NOT_JGEN
 - BOR_CHK_PERSERV_ENCUM
 - Best Practice: Run query before and after Zero in FIN.
 - Should be Zero results after running the Zero Process.
 - Analyze results for remaining 5x encumbrances from purchase orders or manual encumbrance journals.

1. Log into GeorgiaFIRST Financials.
2. **Navigation:**
Menu > BOR Menus > BOR Payroll > BOR Payroll Processing > Zero Pers Serv Encumbrance
3. Create or Select a reusable Run Control:
 - a. Select either:
 - i. New User:
 1. Click **Add A New Value** tab.
 2. Enter the Run Control.
 3. Click **Add**.

The screenshot shows the 'Employee Self Service' header with a back arrow and 'Zero Pers Serv Encumbrance' on the right. Below the header, the page title 'Zero Pers Serv Encumbrance' is displayed. There are two tabs: 'Find an Existing Value' and 'Add a New Value', with the latter being selected and highlighted with a red box. Below the tabs is a text input field containing '*Run Control ID Zero_ENC'. A yellow 'Add' button is positioned below the input field. At the bottom of the page, there are links for 'Find an Existing Value' and 'Add a New Value'.

- ii. Recurring user:
 4. Click **Find an Existing Value**.
 5. Click **Search**.
 6. Select a Run Control.

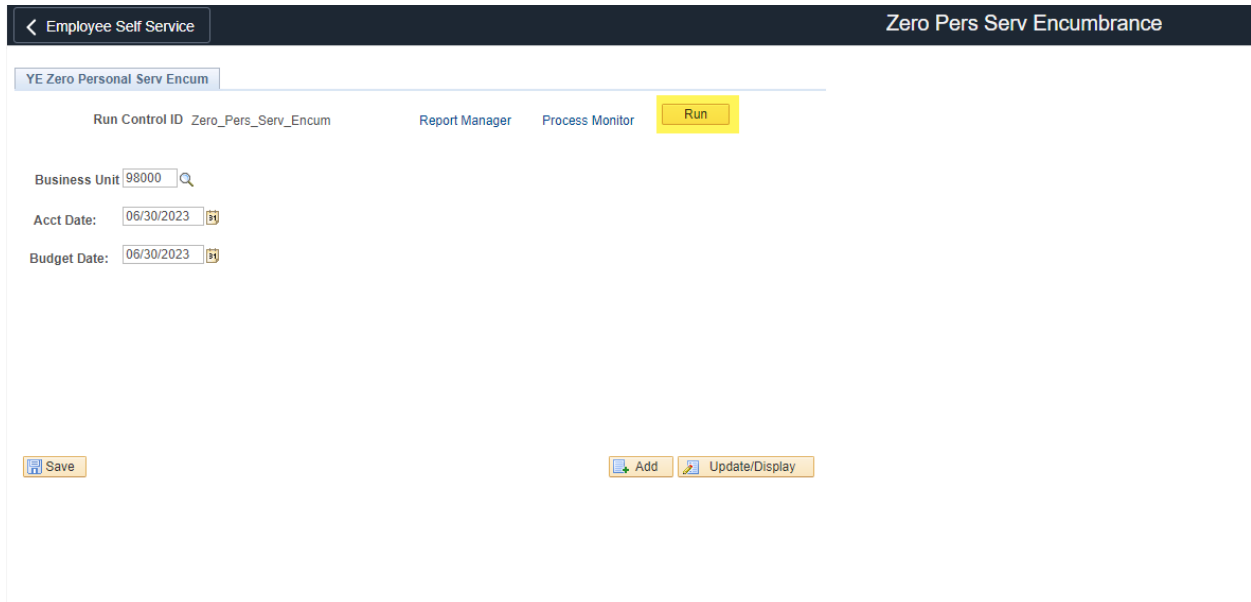

The screenshot shows the 'Employee Self Service' header with a back arrow and 'Zero Pers Serv Encumbrance' on the right. Below the header, the page title 'Zero Pers Serv Encumbrance' is displayed. There are two tabs: 'Find an Existing Value' and 'Add a New Value', with the former being selected and highlighted with a red box. Below the tabs is a search criteria dropdown menu. A text input field contains 'Run Control ID begins with'. There is a checkbox for 'Case Sensitive'. Below these fields are buttons for 'Search', 'Clear', 'Basic Search', and 'Save Search Criteria'. The 'Search' button is highlighted in yellow. Below the buttons, the 'Search Results' section shows 'View All', 'First', '1-3 of 3', and 'Last'. A table lists the search results with columns for 'Run Control ID', 'Surplus_Rpt', and 'report'. The 'Zero_Enc' entry is highlighted in yellow. At the bottom of the page, there are links for 'Find an Existing Value' and 'Add a New Value'.

4. On Zero Pers Serv Encumbrance page:
 - a. Verify/Enter correct **Business Unit** field.
 - b. Enter/Select appropriate date in **Acct Date*** field.
 - c. Verify **Budget Date*** field. This will default from Acct Date field.

*Note: The system automatically populates this field with the System Date.

5. Click **Run**.

6. Click **OK**.

22. Click **OK** to return to the journal.

23. Review Lines, Totals, and Errors tabs.

24. Complete the processing of this journal. Encumbrance journals can be edited and budget checked in batch.

- Edit
- Budget Check

25. To post encumbrance journals please refer to business process regarding marking journals to post:

- https://www.usg.edu/gafirst-fin/documentation/category/general_ledger_and_commitment_control

- See Commitment Control (KK) – Controlled Budgets
 - KK.020.021 - Mark KK Journals to Post.

26. Run Query: BOR_CHK_PERSERV_ENCUM

- No results returned unless manual encumbrance journals or purchase orders on 5x accounts exist.

27. To review these journal entries, users can run the General Ledger Activity Report (GLS7002) as a verification tool. This report lists beginning and ending ledger balances by ChartField combination and account, and detailed journal line activity posted against a ledger for the accounting period specified.

- Navigation: Menu > General Ledger > General Reports > Ledger Activity
