1. Fiscal Year 2021 Operating and Capital Budget

Recommended: That the Board approve the fiscal year (“FY”) 2021 operating and capital budget for the University System of Georgia, as shown in Appendix I.

Summary: The total FY 2021 original budget for the University System of Georgia is approximately \$9.387 billion, which includes funding from all unrestricted and restricted sources. The FY 2021 budget includes the allocation of state funds as approved by the Board last week. This budget also reflects enrollment and other projections made by each institution, which incorporate the tuition rates approved with no increase by the Board in April 2020.

The FY 2021 budget includes the following major categories:

Educational and General Funds: Educational and General Funds serve the primary mission of the University System: teaching, research, and public service, as well as academic support, student services, institutional support, and plant operations. It includes restricted funds, such as sponsored research funding from federal, state and private sources, and unrestricted funds, such as state funds, tuition, and other general funds. The total educational and general budget for the University System for FY 2021 is \$8.122 billion, or \$134.9 million less than the original budget for FY 2020.

Capital: The capital budget includes routine maintenance and repair projects and other capital projects that are managed by the institutions. The FY 2021 capital budget is \$110 million. All bond projects funded by the state are recorded and accounted for in GSFIC’s budget, unless the institution has responsibility for managing the project. The FY 2021 MRR bond funds totaling \$63.7 million will be allocated to the institutions at a future scheduled Board meeting and added to the budget in a future amendment.

Auxiliary Enterprises: Auxiliary Enterprises include student housing, parking, food services, bookstore operations, transportation, athletics, health clinics, and other functions that primarily serve the students, faculty and staff at the institutions. The FY 2021 auxiliary enterprises budget is \$1.030 billion as compared with \$1.060 billion in the original budget for FY 2020. Auxiliary operations should be self-supporting and rates for the various services are set to cover the cost of operations.

Student Activities: Student Activities include a range of activities funded by student fees, such as student government activities, campus newspaper, radio/television, and other extracurricular activities. Also included are costs associated with student recreation centers and other facilities for student programming. The FY 2021 student activities budget is \$125.6 million, as compared with \$130.8 million in the original budget for FY 2020. The student activities budget reflects changes in enrollment, mandatory fees, and the use of prior-year reserves for specific purposes.
